Congratulations EtiraRX!

Etira Rx had a landmark paper published in Nature Cancer! Their first-in-class oral treatment for triple-negative breast cancer targets an extremely vulnerable aspect of solid tumors. They found the treatment to be effective and well tolerated in mice with no off effects/toxicity. Read their paper in this month's issue [here](#)

Putting Residents First

Here at BioLabs our number one priority is resident experience. We have placed a suggestion box in the workstation area. If you have any comments or concerns, please feel free to leave a note in the box. We have also designated a cabinet in the wellness room that contains items that may be of use in case of an emergency. Feel free to use any of these items. If supplies run low, please alert any of our BioLabs' staff.

"I've learned that people will forget what you said, people will forget what you did, but people will never forget how you made them feel"
