THE OFFICIAL BIOLABS PEGASUS PARK NEWSLETTER

ARPA-H Customer Experience Hub

The Advanced Research Projects Agency for Health (ARPA-H) has announced the launch of ARPANET-H, a nationwide health innovation network

Aiming to revolutionize medical research, the \$2.5 billion ARPA-H initiative is modeled after the defense research agency DARPA, with three major hubs:

- Customer Experience hub, Dallas, TX (Pegasus Park)
- Investor Catalyst hub, Cambridge, MA
- Stakeholder and Operations hub, Washington, D.C

The Biden administration created ARPA-H to improve health outcomes for the diverse population of the U.S. The program aims to address the foremost medical problems such as cancer, brain diseases, obesity, diabetes, and much more. One of the key factors for the Texas bid was the region's robust healthcare system and diverse range of medical and research expertise in the four cities (Dallas, Austin, San Antonio, and Houston). BioLabs is a spoke in both the Customer Experience and Investor Catalyst hub and is excited to be a part of this crucial mission.

On-site 1st Thu, 9-12PM

Evotec:
On-site Nov 8, 2023, 10-2PM

Corning:
On-site Nov 30, 2023, 10-12PM

Learn more about these products at www.corning.com/EcoChoice

Sustainability Team

Calling all volunteers: Are you interested in creating a greener lab? Let's get in touch! BioLabs has formed a sustainability team to help brainstorm and implement new sustainability efforts within the facility. If you have any questions or would like to join the team please email, adubrow@biolabs.io.

Next team meeting date/time:
November 3, 2023 @ 9:30AM
Breakfast is provided

Bittersweet Goodbye

Since the start of BioLabs Pegasus Park, Chase Anaya, has been an amazing friend and Bioscience Account Manager with Thermo. Chase has always done an exceptional job at maintaining customer relationships while actively providing them with best in-class customer service. Due to his hard work and dedication, Chase has now been promoted to District Manager. Therefore, this will be the last year Chase will cover BioLabs Pegasus Park. Be sure to congratulate him the next time you see him on-site!

Corning, More Sustainable by Design

As BioLabs continues to roll out sustainability initiatives, we are reaching out for your help. Below you'll find some alternative options for your lab supplies that are designed with a focus on reducing environmental impact throughout their lifecycle. We encourage that you make the switch towards a greener lab!

Product Lines:

- CoolCell Products
- Reloadable Pipette Tip Boxes
- Corning Cell Culture Treated Flask
- Gosselin Petri Dishes
- Corning HYPERFlask

Cold Brew Coming Soon

BioLabs Pegasus Park continues to think of ways to improve facility amenities. One way we thought we can bring joy into scientist's lives was by bringing in a cold brew tap. We are in the process of acquiring the cold brew tap and as soon as we get a date, residents will be the first to know!
